

**REGIONAL TRANSPORTATION COMMISSION
CITIZENS MULTIMODAL ADVISORY COMMITTEE
MEETING AGENDA**

**Wednesday, April 7, 2021 at 5:30 pm
Regional Transportation Commission
1st Floor Conference Room
1105 Terminal Way, Reno NV 89502**

Meeting via teleconference only pursuant to NRS 241.023 and Emergency Directive 006

PUBLIC NOTICE

I. Pursuant to Section 1 of Governor Steve Sisolak's Declaration of Emergency Directive 006 ("Directive 006"), the requirement contained in NRS 241.023(1)(b) that there be a physical location designated for meetings of public bodies where members of the public are permitted to attend and participate has been suspended. Pursuant to Section 3 of Directive 006, the requirements contained in NRS 241.020(4)(a) that public notice agendas be posted at physical locations within the State of Nevada has likewise been suspended. Pursuant to Section 5 of Directive 006, the requirement contained in NRS 241.020(3)(c) that physical locations be available for the public to receive supporting material for public meetings has been suspended. The meeting will be streamed live via the RTC YouTube channel and can be watched by following this link: [bit.ly/RTCWashoeYouTube](https://www.youtube.com/channel/UC8qWj0G0v0v0v0v0v0v0v0v0)

II. The Citizens Multimodal Advisory Committee (CMAC) has a standing item for accepting public input on topics relevant to the jurisdiction of the RTC. Because specific items may be taken out of order to accommodate the public and/or the CMAC, public input on all items will be received under Item 2. Individuals providing public input will be limited to three minutes. Members of the public may provide public comment and also comment on Agenda Items without being physically present at the meeting by submitting their comments via online Public Comment Form (<https://www.rtcwashoe.com/about/contact/contact-form/>), or by emailing their comments to: rtcpubliccomments@rtcwashoe.com. Public commenters may also leave a voicemail at (775) 335-0018. Comments received prior to 4:00 p.m. on April 7, 2021, will be entered into the record.

III. The CMAC may combine two or more agenda items for consideration and/or may remove an item from the agenda or delay discussion relating to an item on the agenda at any time.

IV. Requests for supporting documents and all other requests should be directed to RTC Metropolitan Planning at 775-348-0480. Supporting documents may also be found on the RTC website: www.rtcwashoe.com.

V. The RTC appreciates the public's patience and understanding during these difficult and challenging circumstances.

ITEM 1 Approval of Agenda (*For Possible Action*)

ITEM 2 Public Comment - *pursuant to paragraph II under Public Notice near the top of this page*

ITEM 3 Approval of the March 3, 2021 Meeting Minutes (*For Possible Action*)

ITEM 4 Acknowledge Receipt of the Report on the Arlington Avenue Bridges Project Update (*For Possible Action*)

ITEM 5 Recommend Approval of the FY 2022-2023 Unified Planning Work Program (UPWP) (*For Possible Action*)

ITEM 6 Member Announcements/Agenda Items for Future CMAC Meetings (*For Possible Action*)

ITEM 7 RTC/RIDE/ACCESS Staff Items (*Informational Only*)

ITEM 8 Public Comment - *pursuant to paragraph II under Public Notice near the top of this page*

ITEM 9 Adjournment (*For Possible Action*)

*The Committee **may** take action on any item noted for possible action*

Posting locations: Pursuant to Section 3 of Directive 006, the requirements contained in NRS 241.020(4)(a) that public notice agendas be posted at physical locations within the State of Nevada has been suspended.

Current postings locations are: RTC website: www.rtcwashoe.com, State website: <https://notice.nv.gov/>

**REGIONAL TRANSPORTATION COMMISSION
CITIZENS MULTIMODAL ADVISORY COMMITTEE**

Meeting Minutes

Wednesday, March 3, 2021

Meeting via teleconference only pursuant to NRS 241.023 and Emergency Directive 006

CMAC Members Present

Chun Chao (Alan)
Chair, Vince Harris
Paul Malikowski
Suraj Verma
Jeff Bonano
Laura Azzam
Ben Miller

Sigurd Jaunarajs
Dora Martinez
Harvey Katz
Vice Chair, Jillian Keller
Lindsey Costello
Mauricio Urias
Mike Soszynski

CMAC Members Absent

Majima Mayuko

RTC Staff

Dan Doenges
Jim Gee
Jacqueline Maldonado

Amy Cummings
Michael Moreno

CMAC Guest

The Citizens Multimodal Advisory Committee (CMAC) was conducted as a Virtual Meeting. The meeting was called to order at 5:34 p.m. by the Chair, Vince Harris.

ITEM 1. APPROVAL OF AGENDA

The agenda was approved as submitted.

ITEM 2. PUBLIC COMMENT

There were no public comments.

ITEM 3. APPROVAL OF THE FEBRUARY 3 2021 MEETING MINUTES

The CMAC February 3, 2021, meeting minutes were approved as submitted.

ITEM 4. RECOMMEND APPROVAL OF THE 2050 REGIONAL TRANSPORTATION PLAN (RTP)

Amy Cummings, RTC Deputy Executive Director/Director of Planning gave a presentation on the 2050 RTP. A copy of the PowerPoint is on file at the Metropolitan Planning Department. The 2050 RTP public hearing will be presented to the RTC Board on March 19, 2021 for action.

The Chair, Vince Harris commended the RTC staff for the 2050 RTP process.

Jillian Keller made a motion to recommend approval of the 2050 Regional Transportation Plan (RTP).

Harvey Katz seconded.

The motion carried unanimously.

ITEM 5. RECOMMEND APPROVAL OF THE FFY 2021-2025 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM (RTIP) PROJECT LISTING

Dan Doenges, RTC Planning Manager briefed the committee on the FFY 2021-2025 Regional Transportation Improvement Program (RTIP) project listing. He stated the project listing were provided as attachments on the CMAC agenda for review.

Laura Azzam made a motion to recommend approval of the FFY 2021-2025 Regional Transportation Improvement Program (RTIP) project listing.

Suraj Verma seconded.

The motion carried unanimously.

ITEM 6. MEMBER ANNOUNCEMENTS/AGENDA ITEMS FOR FUTURE CMAC MEETINGS

Laura Azzam requested to have the CMAC agenda packet mailed to her.

ITEM 7. RTC/RIDE/ACCESS STAFF ITEMS

Jim Gee, RTC Service Planning and innovation Manager announced the RTC Virginia Line Extension opens on Saturday from Downtown Reno to UNR Campus/Lawlor Events Center area with eight new transit bus stop stations overall. A virtual public event launch will be live stream on the RTC Facebook on Monday March 8, 2021, at 11:00 a.m. He announced a Free RTC RIDE event on the RTC Virginia Line Extension only March 6, 2021 through March 19, 2021. He stated a Free RTC RIDE on St. Patrick's Day event, March 17, 2021, from 4:00 p.m. to 2:00 a.m. on all RTC transit services.

ITEM 8. PUBLIC COMMENT

There were no public comments given.

ITEM 9. ADJOURNMENT

The meeting adjourned at 6:31p.m.

REGIONAL TRANSPORTATION COMMISSION

Metropolitan Planning • Public Transportation & Operations • Engineering & Construction

Metropolitan Planning Organization of Washoe County, Nevada

MEETING DATE: April 7, 2021

AGENDA ITEM 4

To: Citizens Multimodal Advisory Committee

From: Judy Tortelli, P.E.
Project Manager

RECOMMENDED ACTION

Acknowledge receipt of the report on the Arlington Avenue Bridges Project update.

BACKGROUND AND DISCUSSION

The Arlington Avenue bridges were built in the 1930s and have served the community of Reno and provided access to Wingfield Park for nearly a century. The park, the Truckee River, and the surrounding area have evolved over that time, and the Arlington Avenue bridges have been widened, repaired, and modified in ways that met the needs of the community at the time. However, the bridges are showing signs of wear resulting from the variety of modifications made, their age, and the repeated exposure to flood events.

The RTC's Feasibility Study intends to analyze various bridge structure types, aesthetic themes, and determine what the requirements are as the Project moves into the NEPA/Design phase. It has included evaluating options to ensure continued public safety, to meet the needs of the community, and to provide additional flood conveyance for the Truckee River. RTC is following a Planning and Environmental Linkages (PEL) approach for this study to help inform decision-making, engage the public and stakeholders, and streamline the future NEPA process. Following the PEL process ensures that any so-called 'planning products' or decisions made can be used for NEPA without having to fully revisit that product or decision.

Alternative concepts have been developed for the two Arlington Avenue bridges and analyzed based on their ability to:

- meet the project's Purpose and Need,
- minimize impacts to right of way, the river, and surrounding properties,
- provide access to the park, and
- achieve required flood conveyance criteria.

They have also been analyzed based on cost and level of support received from project stakeholders. Five alternatives were presented at the first Public Meeting. Feedback received from the public helped shape the engineering design and environmental constraints and criteria that were presented at the first Stakeholder Working Group (SWG) meeting. The primary role of the SWG is to provide feedback to the project team and City Council. At SWG-1, constraints and criteria defined by the design team were further vetted and added to. The team developed a summary of anticipated permitting and regulatory requirements. This summary was presented at the first Technical Advisory Committee (TAC) meeting, where members confirmed anticipated permit timeframes and referenced additional requirements that

would need to be considered. The primary role of the TAC is to analyze information on technical aspects of the project. TAC-1 members concluded that two of the five alternatives would be more challenging from a permitting/regulatory perspective.

The five alternatives were further developed into nine concepts. Qualitative attributes (i.e. construction cost, schedule, maintenance access, river recreation impacts, and environmental impacts) were defined by the team so Level 1 Screening of alternatives could be performed by TAC members. TAC members individually scored the range of alternatives. Scores were reviewed and discussed as a group at the TAC-2 meeting where consensus on moving forward with two concepts as the preferred alternatives was achieved. Next, the SWG-2 meeting conveyed input received from the TAC meetings. Members were reminded of the goal to reduce the range of alternatives that are carried forward into NEPA and design. The group concurred that moving forward with the two TAC-2 concept recommendations made the most sense. At the third and final SWG meeting, aesthetics for the Project were presented to the group. High-level aesthetic elements were discussed that focused on overall theme, various lighting potentials, opportunities for railing, widening the sidewalk space, and surface texture options. Again, the group agreed on which elements to carry forward, recognizing the need to start determining the appearance of the bridges while maintaining flexibility as aesthetics are carried forward.

Recommendations for the concepts that best meet the purpose and needs of the Project are being presented today and were presented virtually to the public in March 2021. The final recommendation based on community feedback will be advanced for NEPA clearance and final design.

The following is a timeline of the project development:

- November 16, 2018 – RTC Board approved Jacobs Professional Services Agreement
- November 13, 2019 – City of Reno Council approved process and confirmed SWG members
- May 19, 2019 – RTC Board approved the Arlington Bridges Replacement Project Feasibility Study process
- December 12, 2019 – Public Meeting #1 Presented alternatives and gathered input from the public
- February 6, 2020 – SWG-1 Meeting held in-person at the RTC to identify engineering design and environmental constraints and criteria
- July 15, 2020 – TAC-1 Virtual meeting hosted by the US Army Corp of Engineers to review permitting and regulatory requirements
- August 31, 2020 – TAC-2 Virtual Meeting hosted by the RTC to discuss bridge/roadway elements and score various alternatives
- November 5, 2020 – SWG-2 Virtual meeting hosted by the RTC to discuss bridge type recommendations
- December 15, 2020 – SWG-3 Virtual meeting hosted by the RTC to discuss aesthetic themes and recommendations
- February 19, 2021 – RTC Board Presentation to provide an update on the Project and get direction on public engagement

- February 24, 2021 – City of Reno Council Presentation to get approval on presenting recommended concepts to the public
- March 2021 – Public Meeting #2 (Virtual Project Presentation) Present study findings and gather additional feedback to inform decisions regarding which alternatives should be carried forward

The RTC and City staff have worked together following the previously approved process to complete the feasibility study that has been modeled after the Virginia Street Bridge Project where FHWA funding was also used. This process utilizes documented decisions using the Nevada Department of Transportation (NDOT) and Federal Highway Association (FHWA), Planning and Environmental Linkages (PEL) checklist.

Extensive outreach and coordination with local resource agencies, the public, and City of Reno staff has taken place this past year. Various opportunities for input have been provided and documented. Input received from outreach efforts has been included in the work of the SWG and TAC. Alternatives analysis based on input received has determined the recommended concepts to carry forward. RTC and City of Reno staff support the recommendation that those concepts continue to be explored.

REGIONAL TRANSPORTATION COMMISSION

Metropolitan Planning • Public Transportation & Operations • Engineering & Construction

Metropolitan Planning Organization of Washoe County, Nevada

MEETING DATE: April 7, 2021

AGENDA ITEM 5

To: Citizens Multimodal Advisory Committee

From: Daniel Doenges, PTP, RSP
Planning Manager

RECOMMENDED ACTION

Recommend approval of the FY 2022-2023 Unified Planning Work Program (UPWP).

BACKGROUND AND DISCUSSION

The Unified Planning Work Program (UPWP) documents the major transportation planning activities to be undertaken each fiscal year and the funding sources necessary to support these activities. Federal regulations require the RTC to develop and approve the UPWP as the Metropolitan Planning Organization (MPO) for the region. The UPWP is developed in coordination with the RTC Annual Budget, incorporating the major objectives, revenues and expenses identified in the budget.

Significant tasks to be carried forward into the FY 2022-2023 document include the Regional Transportation Plan (RTP) Activities task, which will include completion of the Electric Vehicle and Alternative Fuel Infrastructure and Advanced Mobility Plan as well as an update to the RTC Bicycle and Pedestrian Master Plan (BPMP). Proposed new studies under the Corridor and Area Planning task include a Verdi Area Transportation Study, a Midtown traffic circulation analysis, and a Downtown Reno/Midtown/Downtown Sparks parking assessment. The RTC will also continue the Data Collection and Analysis Program to monitor active transportation in the region and guide future investment in multimodal projects. In addition, the RTC Transit Optimization Plan Strategies (TOPS), formerly the Short Range Transit Plan, will be updated as well.

Prior to developing the draft UPWP, staff issued a call for projects to generate ideas for inclusion in the proposed program. Input was received from City of Reno staff requesting a travel time reliability analysis on the regional road network and a lighting standards study. The travel time reliability analysis will be integrated into the RTP Activities task. It is anticipated that potential lighting standards will be addressed through future discussions with RTC Engineering staff and staff from the local jurisdictions.

UNIFIED PLANNING WORK PROGRAM FY 2022 – FY 2023

1.0 INTRODUCTION

The Fiscal Years 2022 – 2023 Unified Planning Work Program (UPWP) is developed by the Regional Transportation Commission of Washoe County (RTC). The UPWP describes transportation planning activities scheduled in Washoe County during the period July 1, 2021 to June 30, 2023. These activities will be undertaken by the RTC utilizing the annual federal funding allocations from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) as well as local funds.

The RTC is designated by the Governor as the Metropolitan Planning Organization (MPO) for Washoe County. As the MPO, the RTC administers the federally required transportation planning process within the metropolitan planning area. The RTC planning process considers all modes of transportation and yields plans and programs consistent with the planned development of the urbanized area. The RTC coordinates transportation planning activities with its three member entities of City of Reno, City of Sparks, and Washoe County. The RTC also coordinates with partner agencies including, but not limited to, the Nevada Department of Transportation (NDOT), Truckee Meadows Regional Planning Agency (TMRPA), Washoe County Health District – Air Quality Management Division (WCHD-AQMD), Washoe County School District, Reno-Sparks Indian Colony (RSIC) and Reno-Tahoe Airport Authority (RTAA).

The UPWP has been organized into six major elements with each element subdivided into specific tasks. The six major elements are as follows:

- Administration
- Development review for consistency with the Regional Transportation Plan (RTP)
- Multimodal planning
- Street and highway planning
- Public transportation
- Air quality planning

2.0 PLANNING EMPHASIS AREAS

In 2014, the FHWA and FTA sent a letter to the Executive Directors of MPOs and the heads of the State Departments of Transportation (State DOT) encouraging the agencies to give priority to the following emphasis areas in the updated unified planning work programs and statewide planning and research programs: MAP-21 Implementation, Regional Models of Cooperation, and Ladders of Opportunity. These three priorities were carried forward in the current transportation bill: Fixing America's Surface Transportation (FAST) Act. The planning emphasis areas have been integrated into the RTC planning work program for Fiscal Years 2022 – 2023, as described in this section.

DRAFT

2.1 Implementing MAP-21 and the FAST Act

The metropolitan transportation planning process specified by the FAST Act and the implementing regulations contained in Title 23 Part 450 of the Code of Federal Regulations (CFR) requires the RTC to maintain a cooperative, continuous and comprehensive framework for making transportation investment decisions in the metropolitan area.

The FAST Act carries forward and expands the performance-based transportation planning framework established under MAP-21. This UPWP includes data collection and analysis tasks that will facilitate annual reporting regarding transportation safety, travel time reliability, pavement condition, alternative mode share, and other performance metrics. This UPWP includes tasks to continue evaluation of the transportation performance measures and performance targets established in the Regional Transportation Plan (RTP). The project prioritization process for the RTP reflects consideration of the adopted performance measures.

Transportation legislation also requires the planning process to consider eight factors in the MPO's development of their regional transportation plans and programs. The eight factors are listed below and the following table outlines the associated UPWP tasks that address and support them.

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity and efficiency
2. Increase the safety of the transportation system for motorized and non-motorized users
3. Increase the security of the transportation system for motorized and non-motorized users
4. Increase accessibility and mobility of people and freight
5. Protect and enhance the environment, promote energy conservation, improve quality of life and promote consistency between transportation improvements and State and local planned growth and economic development patterns
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight
7. Promote efficient transportation system management and operation
8. Emphasize the preservation of the existing transportation system

DRAFT

Table 1: Planning Factors and UPWP Tasks

Task	Planning Factor									
	1 Vitality	2 Safety	3 Security	4 Access	5 Environment	6 Connectivity	7 Efficiency	8 Preservation	9 Resiliency/ Reliability	10 Travel & Tourism

4.18 RTC Traffic Model Upgrade/Conversion to TransCAD
4.27 TMRPA Shared Services	
4.31 Data Collection and Analysis Program
5.2 Transit Planning
6.1 Air Quality Modeling/Analysis	
6.2 CMAQ Planning	
6.3 RTIP/RTP Conformity Analysis					.				.	

• Indicates that task supports planning factor

2.2 Regional Models of Cooperation

Through UPWP tasks such as Regional Transportation Plan Activities and Statewide Planning, RTC ensures a regional approach to transportation planning by promoting cooperation and coordination across transit agency, MPO and state boundaries. The Nevada MPOs and NDOT, in partnership with the FHWA Nevada Division Office and FTA Region 9 Office, have adopted a coordinated approach to transportation planning through the formal Planning Executive Group

DRAFT

and various sub-committees. This coordinated approach allows for information sharing about data, needs assessments, funding projections, financial reporting, planning initiatives, project delivery and other issues. RTC participates in multi-jurisdictional and multi-state investment studies coordinated through NDOT, including the McCarran Boulevard Corridor Study, State Freight Plan, State Rail Plan, and the One Nevada (Long Range) Transportation Plan. Through the US 395 Coalition, RTC collaborates with NDOT, CalTrans, and other jurisdictions along this corridor regarding common transportation needs.

As an organization that integrates the functions of the MPO, transit service provider, and regional street and highway program, RTC seamlessly integrates planning for multimodal transportation needs.

2.3 Ladders of Opportunity

The U.S. DOT created Ladders of Opportunities to develop and enhance initiatives, program guidance, tools, and standards that empower transportation leaders and communities to revitalize, connect, and create workforce opportunities that lift more Americans into the middle class. The following paragraphs demonstrate a small sample of the transportation planning efforts that the RTC undertakes to support this initiative.

RTC strives to provide safe access to essential services for all residents of Washoe County. Through the Geographic Information Systems (GIS) task, RTC is able to analyze transportation service and access to employment, health care, schools/education, and other services at a regional scale. Through the Community Involvement Planning task, RTC develops and evaluates new approaches and techniques to expanding public participation, particularly in disadvantaged communities.

The Electric and Alternative Fuel Vehicle Infrastructure and Advanced Mobility Plan will be completed through the Regional Transportation Plan (RTP) Activities task, which will examine the role of technology and shared mobility as transportation options continue to evolve in Washoe County. Anticipated plan recommendations include guidance on how to address equity in mobility to ensure transportation options are available to all users. Through this plan, staff will also consult with officials in the travel and tourism profession, among others, to explore the relationship between shared mobility and the hospitality industry.

The RTP Activities task will also include an update to the Bicycle and Pedestrian Master Plan (BPMP). A refined project prioritization framework was developed through the 2050 RTP process, which will be used in conjunction the Data Collection and Analysis Program to better prioritize future bicycle, pedestrian, and ADA improvements. In addition, several new multimodal project suggestions were received through the outreach efforts of the RTP, and these projects will be evaluated for inclusion in the BPMP.

Under the Transit Planning task, staff will complete the Transit Optimization Plans Strategies (TOPS), which will update the RTC Short Range Transit Plan and explore opportunities to better serve residents with enhanced mobility options. In addition, the RTC will develop an Equity Analysis/Strategy to identify other approaches to engaging and supporting underserved communities with transportation investments. This effort will be conducted under the RTP Activities Task.

DRAFT

3.0 ENVIRONMENTAL JUSTICE/TITLE VI

Achieving equity and environmental justice in provision of transportation projects and services is an important goal of the RTP. The RTC strives to serve the transportation needs of all residents in the planning area without discrimination based on age, income, race, language, ethnicity, or ability. RTC complies with the federal policies and requirements listed below:

- Title VI of the Civil Rights Act of 1964: No person in the U.S. shall, on the basis of race, color, or national origin, be excluded from participation in, denied benefits of, or subjected to discrimination under any program receiving federal funding. RTC is required to take steps to ensure that no discrimination on the basis of race occurs. Title VI requires reporting about how transit services are implemented and what measures the RTC is taking to provide equal access to public transportation.
- Americans with Disabilities Act (ADA) of 1990: Requires that disabled persons have equal access to transportation facilities. This includes wheelchair accessible accommodations in the transit system.
- Executive Order on Environmental Justice: Executive Order 12898 requires the identification and assessment of disproportionately high and adverse impacts on minority and low-income populations.

Transportation projects and services are implemented in conformance with the RTC Title VI Policy. RTC submits a Title VI Report to the Federal Transit Administration every three years, with the most recent developed in 2020. As identified in the report, the following measures are in place to comply with Title VI requirements:

- Minority, low-income, and Limited English Proficiency (LEP) persons are able to provide meaningful input into the planning process through participating in public meetings held in locations near transit routes and where translators and materials are provided in Spanish and English.

RTC Title VI Policy

The RTC is committed to ensuring that no person is excluded from participation in, or denied the benefits of, its services on the basis of race, color or national origin as protected by Title VI of the Civil Rights Act of 1964, as amended.

No person or group of persons will be discriminated against with regard to fares, routing, scheduling, or quality of transportation service that the RTC furnishes on the basis of race, color, or national origin. Frequency of service, age and quality of RTC vehicles assigned to routes, quality of RTC stations serving Washoe County, and location of routes will not be determined on the basis of race, color or national origin.

DRAFT

- RTC has a complaint procedure in place to investigate and track Title VI concerns.
- RTC submits an annual Title VI Certification and Assurance report to the US Department of Transportation.

The 2050 RTP includes a chapter to specifically address promoting equity and environmental justice in regional transportation. The chapter includes an analysis of impacts of RTC projects and services on low income and minority population.

As part of the planning process for all applicable tasks, socioeconomic and environmental data are analyzed. Environmental justice applies to all transportation services and is part of the overall planning process. As the Metropolitan Planning Organization (MPO), the RTC complies with Title VI and addresses environmental justice by:

- Enhancing the analytical capabilities to ensure that the RTP and the RTIP comply with Title VI.
- Identifying residential, employment and transportation patterns of low-income and minority populations so that their needs can be identified and addressed and the benefits and burdens of transportation investment can be fairly distributed.
- Evaluating and, where necessary, improving the public involvement processes to eliminate participation barriers and engage minority and low-income populations in transportation decision making.

4.0 TRANSPORTATION PLANNING PRIORITIES FOR FY 2022 – FY 2023

This section describes the priorities of the RTC planning program for the next two years.

4.1 2050 Regional Transportation Plan Guiding Principles & Goals

The RTC Board approved the resolution adopting the 2050 Regional Transportation Plan (RTP) on March 19, 2021 and subsequently received conformity determination from the Federal Highway Administration (FHWA), Federal Transit Administration (FTA) and the Environmental Protection Agency (EPA). The RTP reflects over eighteen months of community outreach and agency coordination and provides a balanced approach to improving safety, livability and regional connectivity. The plan represents the region's transportation vision and quality of life investments for Safe and Healthy Communities; Economic Prosperity, Equity and Innovation; Sustainability and Climate Action; and Increase Travel Choices.

The RTP was developed with significant input from community residents and stakeholder agencies. The public participated through in-person planning workshops, online surveys, virtual open houses, and several presentations to local jurisdictions. In addition, area specific outreach was accomplished through both in-person and virtual meetings.

The 2050 RTP establishes the guiding principles and goals for regional transportation planning in Washoe County, as described below. These priorities are implemented through the planning projects in this UPWP.

DRAFT

2050 RTP Guiding Principles & Goals

The four guiding principles include promoting:

- Safe and Healthy Communities
- Economic Prosperity, Equity and Innovation
- Sustainability and Climate Action
- Increase Travel Choices

The ten goals include:

- Improve and Promote Safety
- Integrate All Types of Transportation
- Promote Healthy Communities and Sustainability
- Promote and Foster Equity and Environmental Justice
- Integrate Land Use and Economic Development
- Manage Existing Systems Efficiently
- Enhance Regional Connectivity
- Improve Freight and Goods Movement
- Invest Strategically
- Engage the Public and Encourage Community Involvement

The UPWP links the long range guiding principles of the 2050 RTP to performance based planning and project delivery. As an example, the annual reporting of performance targets in the RTP will be conducted, in part, through the data collection and analysis program in the UPWP. The community involvement planning task will allow RTC to continue the collaborative partnerships with other agencies, organizations, and members of the general public that were established or strengthened through the RTP development process. The corridor studies included in the UPWP will facilitate analysis of safety and multimodal transportation issues that are at the core of the guiding principles to provide safe and healthy communities and increase travel choices. The corridor studies allow for an approach that links planning and environmental analysis early in project development.

Through the FY 2022 – FY 2023 UPWP will initiate the 2055 RTP process toward the end of the two-year program. The RTC will also conduct several planning initiatives that support the RTP. In addition to the BPMP, Advanced Mobility Plan, and Equity Analysis mentioned previously, staff will expand the RTC travel demand model to capture the growth in vehicle miles traveled (VMT) east of Washoe County. Acquiring updated external zone traffic counts will enhance model accuracy and provide a better understanding of the travel characteristics between the urban area and the growing employment opportunities to the east. An emphasis on regional safety is also a significant component of the RTP, while RTC staff continues to partner with groups such as Vision Zero Truckee Meadows.

DRAFT

4.2 Public Participation

Public and agency coordination is the cornerstone of the transportation planning process. The Public Participation Plan was updated in FY 2017 and the RTC will continue to monitor its implementation. The plan should be reviewed with respect toward an emphasis in virtual and social media outreach platforms as a result of the recent COVID-19 pandemic.

The public participation plan ensures that residents are given the opportunity to be part of the planning efforts that will shape their communities in the future. The plan describes a proactive process for engagement with the RTC, and addresses complete information, timely public notice, full public access to key decisions, and support of early and continuous involvement of the public in developing regional plans and programs. The purpose of the public participation plan is to increase community awareness and participation while widening the range of voices and views in the planning process. The plan outlines strategies for increasing public information and involvement in the planning process. RTC uses a wide range of public participation approaches, including community planning workshops, roundtable discussions, open house meetings, websites, social media, surveys, and print and broadcast media.

4.3 Performance Based Planning

The 2050 RTP identified performance measures that are consistent with the national priorities included in MAP-21. The performance measures are being tracked and analyzed in an annual report produced by RTC, as well as being reported to NDOT for their use in carrying out the requirements of the National Performance Management program. The information from this analysis will be used in future updates to the RTP as projects are evaluated. Performance measures are linked to the congestion management process (CMP), which considers safety, alternative mode priorities, operations, and travel delay in project selection and prioritization. The performance management program and CMP will be used to analyze any potential changes that could be made to the capacity program through the RTP process.

As national and state performance targets are developed or refined, RTC will update the regional performance targets as necessary. RTC is actively participating with NDOT and other Nevada MPOs as targets for the performance measures are being established or updated. The National Performance Measures identified in the 2050 RTP are provided in the tables below.

DRAFT

**Table 2
National Safety (PM1) Performance Measures**

RTP Goal	Performance Measures	Performance Target	2017 Performance Measure Status	2017 Performance Target Status
Improve Safety	Number of fatal crashes (5-year average)	8% annual reduction from previous year trend line (41 for year 2018)	42	Working towards aspirational goal of Zero Fatalities
	Number of fatal crashes per 100 million VMT (5-year average)	1.11 for year 2018 based on fatal crashes target	1.12	Working towards aspirational goal of Zero Fatalities
	Number of serious injury crashes (5-year average)	Maintain existing decreasing trend (157 for year 2018)	157	Met 2018 goal and working towards aspirational goal of Zero Fatalities
	Number of serious injury crashes per 100 million VMT (5-year average)	4.24 base on serious injury crashes target based on serious injury crashes target	4.13	Met 2018 goal and working towards aspirational goal of Zero Fatalities
	Number of non-motorized fatalities (5-year average)	8% annual reduction from previous year trend line (14 for year 2018)	14	Met 2018 goal and working towards aspirational goal of Zero Fatalities
	Number of non-motorized serious injuries (5-year average)	Maintain existing decreasing trend (30 in 2018)	31	Working towards aspirational goal of Zero Fatalities

**Table 3
National PM2 Performance Measures (Targets Set by NDOT)**

Performance Measures	Baseline	2-Year Condition/ Performance	2-Year Target	4-Year Target
Percentage of Pavements of the Interstate System in Good Condition		81.8%		74.7%
Percentage of Pavements of the Interstate System in Poor Condition		0.3%		1.4%
Percentage of Pavements of the Non-Interstate NHS in Good Condition	79.4%	77.6%	67.6%	55.8%
Percentage of Pavements of the Non-Interstate NHS in Good Condition				
Percentage of Pavements of the Non-Interstate NHS in Poor Condition	4.7%	4.1%	5.7%	6.5%
Percentage of Pavements of the Non-Interstate NHS in Poor Condition				
Percentage of NHS Bridges Classified as in Good Condition	42.2%	42.9%	35.0%	35.0%
Percentage of NHS Bridges Classified as in Poor Condition	0.5%	0.9%	7.0%	7.0%

Note: the statewide budget for fiscal years 2018 and 2019 was much higher than anticipated after the 2-year targets were established. Therefore, the increase in spending led to better than expected 2-year pavement and bridge condition. The 4-year targets, which were established at the same time as the 2-year targets, have not been revised; but it is estimated that the 4-year pavement and bridge condition will exceed the targets.

DRAFT

**Table 4
National PM3 Performance Measures (System Performance/Freight)**

RTP Goal	Performance Measures	Performance Target	2017 Performance Measure Status	2017 Performance Target Status
Congestion Reduction	Percentage of person-miles traveled that are reliable on the Interstate System	90%	99.60%	Met goal
	Percentage of person-miles traveled that are reliable on the Non-Interstate National Highway System (NHS)	75%	84.60%	Met goal
	Truck Travel Time Reliability (TTTR) Index"	1.5	1.24	Met goal

**Table 5
National PM3 Performance Measures (CMAQ)**

Performance Measure	Target
Total emission reduction of NOx for CMAQ funded projects	Working toward RTC 4-year target of 152.1 kg/day
Total emission reduction of VOC for CMAQ funded projects	Working toward RTC 4-year target of 266.9 kg/day
Total emission reduction of PM ₁₀ for CMAQ funded projects	Working toward RTC 4-year target of 1.2 kg/day
Total emission reduction of CO for CMAQ funded projects	Working toward RTC 4-year target of 2,019.2 kg/day

DRAFT

4.4 Regional Transportation Improvement Program

The short-range planning document, the Regional Transportation Improvement Program (RTIP), represents the first five years of the 2050 RTP. The document is developed in draft form by RTC staff based upon joint work by RTC staff and staff representatives of the local government agencies. RTC's advisory committees then review the document and the RTC Board adopts it through a public hearing process following a 21-day public comment period. The RTC and NDOT work together to develop, analyze, and coordinate projects included in the RTIP and Statewide Transportation Improvement Program (STIP). The most recent project listing is available for the public to review through the electronic STIP (eSTIP) at <https://estip.nevadadot.com/default.asp>.

4.5 Air Quality

One of the requirements for both the RTP and RTIP is that they conform to all applicable State Implementation Plans (SIPs) and the Clean Air Act (CAA). Should the need arise to amend either document, staff will work with the Air Quality Interagency Consultation Workgroup to ensure conformity on any proposed amendments if applicable.

The RTC also partners with the Washoe County Health District in community outreach and education programs to promote public health through active transportation, including Nevada Moves Day, the annual Washoe County Healthy Community Forum, and Bike to Work, School and Fun Month.

DRAFT

5.0 WORK ELEMENTS AND TASK DESCRIPTIONS

This section describes the six major elements and the tasks within those elements. Except as otherwise noted the RTC is the administrator of each of the tasks.

WORK ELEMENT: 1.0 ADMINISTRATION

PREVIOUS AND ONGOING WORK

The tasks in this work element cover activities related to the overall administration of RTC's transportation planning program. All tasks are annual or ongoing activities undertaken to maintain compliance with federal/state regulations, organize and manage Planning Department activities and improve staff skills.

This element also funds the reproduction and distribution of the many required planning documents including the RTIP, RTP, UPWP, Public Participation Plan, and other documents mandated by the FAST Act. In addition, this work element funds the continuing, comprehensive, and cooperative planning and public involvement process required by the FAST Act, including publication of public notices and providing support to the RTC advisory committees.

RTC continues to work in coordination with local governments and state and federal transportation agencies to implement and accomplish planning programs. This occurs through the monthly meeting and review of the Technical Advisory Committee (TAC); monthly Planning Executive Group (PEG) and sub-group meetings with NDOT, FHWA, and the other Nevada MPOs; RTC staff participation with the TPAC; the Truckee Meadows Regional Planning Agency (TMRPA); technical advisory groups for specific projects and studies; and many other committees and groups.

TASKS

1.1 Administration/Continuing Planning

Task Elements

Perform general administrative functions concerning the transportation planning program including preparation of administrative reports, analyses, budgets, goals and objectives, correspondence, documents, memos, etc. Also includes the time and materials used for the advertising, preparation and conducting of the public involvement activities including all RTC advisory committees and their subcommittees, the RTP Agency Working Group and any special committees convened to address regional transportation issues and other public meeting/involvement activities. Provide dues, subscriptions and professional memberships to organizations as appropriate.

Expected Products

- Monthly agendas for advisory committees and general administrative functions
- Miscellaneous reports, analyses, correspondence and memoranda

DRAFT

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$597,132
	Local	<u>\$31,428</u>
	TOTAL	\$628,560

1.2 Unified Planning Work Program

Task Elements

Prepare and process the quarterly reports for the FY 2022 – FY 2023 Unified Planning Work Program (UPWP) as well as year-end reports. Prepare and submit any necessary amendments to the UPWP. Prepare and adopt the FY 2024 – FY 2025 UPWP in cooperation with local, state and federal agencies.

Expected Products

- FY 2022 – FY 2023 UPWP quarterly and annual reports
- Amendments to the FY 2022 – FY 2023 UPWP as necessary
- An adopted FY 2024 – FY 2025 UPWP

Completion Date: June 2023 as well as ongoing task

Funding:	Federal PL Funds	\$11,197
	Local	<u>\$589</u>
	TOTAL	\$11,786

1.3 MPO Certification

Task Elements

This task includes preparing and maintaining documentation of all planning activities carried out by RTC for MPO certification by the Secretary of the U.S. Department of Transportation (USDOT) pursuant to MAP-21 and FAST Act requirements.

Expected Products

Support for MPO certification

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$1,866
	Local	<u>\$98</u>
	TOTAL	\$1,964

DRAFT

1.4 Statewide Planning

Task Elements

Participate in the statewide transportation planning process including attendance and participation in the TPAC and other project advisory committees, coordination on planning studies and data sharing efforts, involvement in the project selection process, input on safety improvements and other applicable activities.

Expected Products

Coordinated state planning process and documents

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$37,321
	Local	<u>\$1,964</u>
	TOTAL	\$39,285

1.5 Training

Task Elements

Facilitate and attend training courses and webinars related to multimodal transportation planning and safety as appropriate, including training on specific planning tools and programs such as TransCAD, VISSIM, GIS, etc. Maintain in-house library of transportation planning publications and other materials for use by RTC and local agency staff.

Expected Products

- Increased staff skill and knowledge levels
- Organized, up-to-date and functional library

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$111,962
	Local	<u>\$5,893</u>
	TOTAL	\$117,855

WORK ELEMENT: 2.0 DEVELOPMENT REVIEW

PREVIOUS AND ONGOING WORK

The Cities of Reno and Sparks and Washoe County solicit comments from RTC on all major residential, commercial, industrial and other proposed developments, particularly those of regional significance. RTC provides comments on the anticipated traffic impacts associated with the development and the need to provide right-of-way and improvements to serve all modes

DRAFT

of travel per the RTIP and RTP. The information generated by this review process serves as an important input to the transportation planning process.

One of the most important products of the development review task is the identification of development impacts to long-range transportation improvements contained in the RTP. In particular, the development review process has identified right-of-way needs and allowed for corridor protection through building setbacks, project redesign and advance right-of-way acquisition, when appropriate. This process also allows RTC to identify and request accommodations for transit services and provide information on trip reduction opportunities where applicable.

TASKS

2.1 RTC Development Review and Meeting Attendance

Task Elements

Perform reviews of proposed developments to determine transportation impacts, recommend mitigation measures and comment to public agencies in a timely fashion. Represent RTC as the MPO at development-related meetings and provide supporting information to local commissions, boards, planning staffs and consultants regarding RTC comments.

Maintain a development review database containing information on project location, land-use, trip generation and RTC comments. Document the consistency of the population and employment impacts of approved projects in future year forecasts.

Expected Products

- Letters to the local jurisdictions containing RTC comments on proposed developments as necessary
- Current and continuously updated and accurate database for approved development

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$29,857
	Local	<u>\$1,571</u>
	TOTAL	\$31,428

DRAFT

WORK ELEMENT: 3.0 MULTIMODAL PLANNING AND PROGRAMMING

PREVIOUS AND ONGOING WORK

This work element encompasses RTC’s multimodal planning and programming activities. During the FY 2020 – FY 2021 timeframe, the major activities under this task included development of 2050 RTP and the FFY 2021-2025 RTIP. In addition, the Electric and Alternative Fuel Vehicle Infrastructure and Advanced Mobility Plan, which was initiated under the last UPWP will be completed.

TASKS

3.1 Regional Transportation Improvement Program (RTIP)

Task Elements

Maintain the FFY 2021-2025 RTIP through the duration of the UPWP. Include new transportation projects within the urbanized area funded with RTC, state or federal funds and prepare and complete all necessary amendments and administrative modifications.

Expected Products

- Maintenance of the 2021-2025 RTIP through the duration of the UPWP
- Amendments and modifications to the RTIP as needed
- Initial development of the FFY 2023-2027 RTIP toward the end of the two-year UPWP

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$26,125
	Local	<u>\$1,375</u>
	TOTAL	\$27,500

3.4 Regional Transportation Plan (RTP) Activities

Task Elements

The 2050 RTP was adopted by the RTC Board on March 19, 2020. This task will include maintenance and any necessary amendments to the 2050 RTP until work on the 2055 RTP is initiated. It is anticipated that this will begin toward the end of the two-year program.

Another item under this task includes completion of the Electric and Alternative Fuel Vehicle Infrastructure and Advanced Mobility Plan. This plan will examine the role of technology and shared mobility as transportation options continue to evolve in Washoe County. It will also look at what the region can do to prepare for anticipated changes in mobility.

An update to the RTC Bicycle and Pedestrian Master Plan (BPMP) will also be completed under this task to better prioritize future bicycle, pedestrian, and ADA improvements. In addition,

DRAFT

several new multimodal project suggestions, which were received through the 2050 RTP process, will be evaluated for inclusion in the BPMP.

Following up on the anticipated completion of the Statewide Freight Plan developed by NDOT, the RTC will conduct a more detailed study of the freight network, goods movement, and needs assessment for the Reno-Sparks area. This study will examine potential policy and infrastructure improvements to better facilitate the movement of goods throughout the region.

The RTC also anticipates development of an Equity Analysis/Strategy to identify other approaches to engaging and supporting underserved communities with transportation investments.

Other requests received include an evaluation of travel time reliability on the region’s surface streets, and continued support and analysis of transportation safety efforts.

Expected Products

- RTP amendments as needed throughout the year, initiation of 2055 RTP
- Completed Electric and Alternative Fuel Vehicle Infrastructure and Advanced Mobility Plan
- Updated Bicycle and Pedestrian Master Plan
- Initiate Regional Freight Study
- Equity Analysis/Strategy
- Analysis and deliverables on applicable requests

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$512,316
	Local	<u>\$26,964</u>
	TOTAL	\$539,280

3.5 Congestion Management Process

Task Elements

An updated congestion management process was developed to reflect the guiding principles, goals, and project prioritization framework in the 2050 RTP. This process includes safety, alternative mode capacity, operational improvements, land use compatibility, and community input as factors in the CMP.

The CMP will be used to evaluate new projects that are suggested for incorporation into the RTP. The CMP will be instrumental in any future updates to the RTP as well.

Expected Products

CMP evaluation of proposed projects for the 2045 RTP

Completion Date: Ongoing task

DRAFT

Funding:	Federal PL Funds	\$1,866
	Local	<u>\$98</u>
	TOTAL	\$1,964

3.10 Public Participation Plan Development/Update

Task Elements

The Public Participation Plan should be periodically reviewed, to reflect changes in federal legislation, current outreach procedures, and changes to the structure of RTC advisory committees. This is an ongoing task to ensure that the public participation plan is in compliance with federal regulations and that the agency is making the best use of all the available methods to engage the public in the planning process.

Expected Products

Maintenance of the Public Participation Plan

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$7,464
	Local	<u>\$393</u>
	TOTAL	\$7,857

3.11 Community Involvement Planning

Task Elements

RTC will continue to build on the community outreach activities including those related to planning studies, visioning, and other regional transportation planning issues. This task includes development of outreach and presentation materials. The RTC is also a participant in the Vision Zero Truckee Meadows Coalition and will continue to help facilitate data sharing and outreach to support the goals of this community partnership.

Expected Products

Outreach activities

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$67,177
	Local	<u>\$3,536</u>
	TOTAL	\$70,713

DRAFT

3.13 Corridor and Area Planning

Task Elements

It is anticipated that several corridor studies will be undertaken through this UPWP. These include a Verdi Area Transportation Study, Midtown Circulation Study, and a Regional Parking Study. The RTC will also provide support to the City of Reno and the Nevada Department of Transportation on a Downtown Virginia Street Study and a McCarran Boulevard Corridor Study, respectively. However, it is expected that funding for the last two studies (including staff time) will be provided through other sources outside of the UPWP.

Corridor/area studies specific to this UPWP are listed below. However, activities for the FY 2022 – FY 2023 UPWP also include any special planning analyses/corridor studies to further overall regional goals and objectives as needed.

- Verdi Area Transportation Study: The study will focus on traffic operations analysis and improvements, safety improvements, pedestrian and bicycle connectivity and microtransit service needs. The Verdi area is expected to see significant residential growth over the next several years, and this study will look at how to best support the transportation needs for planned development.
- Midtown Circulation Study: The RTC recently completed roadway improvements along the Virginia Street corridor in Midtown as part of the Virginia Street Bus RAPID Transit (BRT) Extension project. In addition to much need multimodal and traffic calming improvements, center medians and access management features were constructed, which modified traffic circulation in Midtown. This study will evaluate current circulation patterns and identify any opportunities to optimize traffic flow while maintaining the effectiveness of the new constructed pedestrian safety measures.
- Regional Parking Study: Both the Cities of Reno and Sparks have requested a parking study for their respective downtown areas. As the City of Reno moves toward establishing a more pedestrian-friendly downtown, it is looking to create separation between vehicles and other transportation modes and centralize parking availability. The City of Sparks has successfully achieved high-density development in its downtown area and is exploring parking options to support demand. Additionally, there has been an increase in demand for Park and Ride lots in central Sparks to support an increasing demand for carpools and vanpools for commuters traveling to nearby industrial centers.

Expected Products

- Verdi Area Transportation Study
- Midtown Circulation Study
- Regional Parking Study
- Various special planning analyses/corridor studies as needed

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$443,613
	Local	<u>\$23,348</u>
	TOTAL	\$466,961

DRAFT

WORK ELEMENT: 4.0 STREET AND HIGHWAY PLANNING

PREVIOUS AND ONGOING WORK

The Regional Transportation Plan provides the basis for future development of Washoe County's transportation system. Major activities during the previous UPWP included:

- An updated and upgraded TransCAD regional travel demand model, including streamlined conversion of data for use in air quality modeling.
- Identification of long-term trends for bicycle, pedestrian, and wheelchair mobility through the Data Collection and Analysis program.
- Continued development of RTC's Geographic Information System (GIS) capability, including the production of several online interactive maps and enhanced safety data.
- Continued coordination of traffic counts and forecasts as needed to support RTC, NDOT and local government activities.

TASKS

4.1 Regional Road Impact Fee (RRIF) Activities

Task Elements

Conduct planning work, as the MPO, associated with the update and maintenance of the RRIF program in cooperation with local government agencies and the RRIF Technical Advisory Committee. Tasks will include planning work necessary to update socioeconomic data, provide travel forecasts, and evaluate capacity improvement solutions.

Expected Products

- Continued review of the RRIF
- Continuous update of socioeconomic data and provision of travel forecasts

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$7,464
	Local	<u>\$393</u>
	TOTAL	\$7,857

4.2 Geographic Information System (GIS) Management

Task Elements

Maintain and continue to refine network files, traffic analysis zone structures and other GIS files necessary to support a variety of RTC planning needs. Frequent analysis of socioeconomic, transportation, safety, land use, and environmental data as part of the planning process, including analysis of 2020 Census data. Analyses will be conducted for planning-level alternatives developed for long-range and/or corridor studies. Products such as interactive

DRAFT

mapping will be developed to provide transparent and up-to-date project information to the public.

Expected Products

GIS products adequate to support ongoing RTC planning activities

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$111,962
	Local	<u>\$5,893</u>
	TOTAL	\$117,855

4.3 Traffic Forecasting

Task Elements

Provide traffic forecasts as requested at system and corridor level for the RTIP, RTP and other planning projects to further overall regional goals and objectives. Respond to travel forecast requests from NDOT, regional and local governments, and the public that are at a planning level analysis and not otherwise identified as part of regional or corridor analyses.

Expected Products:

Traffic forecasts and projections as requested

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$11,197
	Local	<u>\$589</u>
	TOTAL	\$11,786

4.18 RTC Traffic Model Upgrade/Conversion to TransCAD

Task Elements

The travel demand model will continue to be refined based on data collection and calibration efforts as well as necessary software requirements. The RTC integrates land use data for the region into the travel demand forecasting model that assists in the identification of current and future transportation needs through the shared work program with the Truckee Meadows Regional Planning Agency (TMRPA). RTC will collaborate with TMRPA in the development of the 2022 Consensus Forecasts, which will inform the travel demand model.

The travel demand model will be expanded with support from NDOT and the City of Fernley in an effort to build a more robust and comprehensive Northern Nevada model. This project is in response to recent growth in employment opportunities and commuter travel between the Reno-Sparks area, Tahoe Reno Industrial (TRI) Center, and the City of Fernley. It is anticipated that travel data will be purchased to support this effort.

DRAFT

Expected Products

- Continued refinement of the travel demand model
- Integration of the disaggregated 2022 Consensus Forecasts into the travel demand model
- Geographic expansion of the model

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$150,642
	Local	<u>\$7,929</u>
	TOTAL	\$158,570

4.27 Truckee Meadows Regional Planning Agency (TMRPA) Shared Services

Task Elements

This task will provide shared staff resources and expertise between the RTC and TMRPA for MPO activities. The core areas of this shared program delivery under the UPWP include GIS analysis, data collection, online data access, and development of the 2022 Consensus Forecasts. TMRPA will also work with RTC to forecast the traffic impacts of various development scenarios.

Expected Products

Expected products will include shared GIS data resources, collaborative public outreach materials and events, and analytical staff reports on various planning topics.

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$125,197
	Local	<u>\$6,589</u>
	TOTAL	\$131,786

4.31 Data Collection and Analysis Program

Task Elements

This task includes data collection related to safety, regional bicycle and pedestrian counts, traffic calming treatments, and other transportation infrastructure data as needed. Analysis of mode share by auto, transit, bicycle, and pedestrian will be conducted. This program will support monitoring of transportation performance measures included in the 2050 RTP. In addition, this data will be used to assist with prioritization of future multimodal infrastructure investment.

Expected Products

DRAFT

Creation and maintenance of GIS data, updated multimodal count database, and analysis for the performance measures identified in the annual report. Prioritization of multimodal transportation improvements.

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$204,928
	Local	<u>\$10,786</u>
	TOTAL	\$215,714

WORK ELEMENT: 5.0 PUBLIC TRANSPORTATION PLANNING

PREVIOUS AND ONGOING WORK

The Affordable Housing Study was completed to determine potential locations for the development of affordable housing near higher-ridership transit routes to better facilitate a jobs-housing balance in the region. The Coordinated Human Services Transportation Plan (CTP) was also completed. This plan is required by the FTA for activities to be funded by the Section 5310 program, and addresses means to maximize the use of existing resources and increase the efficiency of transportation service delivery among various agencies and organizations through the private, non-profit, and public sectors. Continued analysis of transit route performance will also occur throughout this UPWP cycle to maximize system efficiency.

TASKS

5.2 Transit Planning

Task Elements

This task will include transit planning related to bus route analysis and modifications, bus stop facilities and amenities, bus maintenance facilities, transit fleet monitoring and implementation of new technology, and monitoring of transit performance measures.

The RTC will continue to monitor and update the Transit Asset Management (TAM) Plan as needs and priorities change. TAM plans are required of all agencies that own, operate, or manage capital assets used to provide public transportation and receive federal financial assistance.

Additionally, the RTC will develop the Transit Optimization Plan Strategies (TOPS), formerly known as the RTC Short Range Transit Plan (SRTP). The TOPS will include a thorough review and evaluation of the effectiveness and efficiency of current transit routes, schedules and service standards; and a five-year capital and operating plan, including any new service. Proposed changes to the fixed-route system will address potential impacts on the ADA paratransit system and compliance with Title VI, Limited English Proficiency (LEP) and Environmental Justice (EJ) requirements and regulations.

Expected Products

DRAFT

- Monthly transit system operations reports and sections of the annual report related to performance measures
- Development of the TOPS

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$383,392
	Local	<u>\$20,179</u>
	TOTAL	\$403,570

WORK ELEMENT: 6.0 AIR QUALITY PLANNING

PREVIOUS AND ONGOING WORK

During the previous UPWP, the RTC continued participation in the air quality interagency consultation group comprised of various agencies including Washoe County Health District — Air Quality Management Division (WCHD-AQMD) and the Nevada Department of Environmental Protection (NDEP) in order to meet the Transportation Conformity requirements for the 2050 RTP. Staff will continue to participate in planning activities that seek to improve Washoe County’s attainment/maintenance status for PM₁₀ and CO criteria air pollutants.

TASKS

6.1 Air Quality Modeling/Analysis

Task Elements

Perform transportation monitoring and analysis required as part of the Washoe County Transportation Conformity Plan. This task will include, as needed, analysis of alternate base years and mobile source measures proposed for inclusion in local air quality plans.

Continue to attend meetings and monitor activities of the WCHD-AQMD and other organizations dealing with air quality issues. The interagency consultation group meets on a quarterly basis.

Expected Products

- Continued participation in the conformity process established in the Washoe County Transportation Conformity Plan
- Air quality analysis as needed under the current RTP.

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$11,197
	Local	<u>\$589</u>
	TOTAL	\$11,786

6.2 CMAQ Evaluation Planning

DRAFT

Task Elements

Continue to conduct planning-level emission reduction calculations and cost benefit analyses for CMAQ projects. Prepare the annual CMAQ report which is used as the basis for reporting performance targets under the MAP-21 Performance Management program.

Expected Products

- CMAQ planning-level emission reduction calculations and cost benefit analysis
- Annual CMAQ report and updated performance targets

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$7,464
	Local	<u>\$393</u>
	TOTAL	\$7,857

6.3 RTIP/RTP Conformity Analyses

Task Elements

Prepare updated conformity analyses of RTC plans and programs as required to comply with Clean Air Act mandates and guidelines. Conformity analyses will encompass the non-attainment or maintenance area appropriate for each criteria air pollutant.

Expected Products

Continue to perform conformity analyses, as needed, for the RTP and the RTIP

Completion Date: Ongoing task

Funding:	Federal PL Funds	\$1,866
	Local	<u>\$98</u>
	TOTAL	\$1,964

TABLE 6
FY 2022-2023 UNIFIED PLANNING WORK PROGRAM - DRAFT

Totals may vary slightly due to rounding

WORK ELEMENT	TASK	STAFF HOURS	% HOURS	COSTS			FUNDING SOURCES						
				STAFF	CONSULT	TOTAL	Federal PL FUNDS	Local MATCH*	RTC Fuel TAX	RTC Sales TAX	TOTAL LOCAL	TOTAL

APPENDIX A

REGIONAL TRANSPORTATION COMMISSION ORGANIZATIONAL CHART

DRAFT

APPENDIX B NDOT/RTC Roles and Responsibilities

The purpose of this statement is to outline the roles and responsibilities of the Nevada Department of Transportation (NDOT) and the Regional Transportation Commission of Washoe County (RTCWC), as required by 23 CFR Sec.450.314 and is incorporated in the Unified Planning Work Program per 23 CFR 450.314.

I. General Roles & Responsibilities

RTCWC will perform the transportation planning process for Washoe County and develop procedures to coordinate transportation planning activities in accordance with applicable federal regulations and guidance.

The transportation process will, at a minimum, consist of:

- A. Development of an annual Unified Planning Work Program (UPWP) that lists and describes all transportation planning studies and tasks to be completed during the year.
- B. Development and update of a long range, multi-modal metropolitan transportation plan, known as the Regional Transportation Plan (RTP).
- C. Development and maintenance of a short-range transportation improvement program (TIP).
- D. Financial planning to ensure plans and programs are fiscally constrained within anticipated funding levels.
- E. Development of planning studies and system performance monitoring, including highway corridor and intersection studies, transit system studies, application of advanced computer techniques, and transportation data collection and archiving.
- F. Public outreach to the community throughout the transportation planning process, including the electronic dissemination of reports and supporting information on the RTCWC's website, and consideration of public comments. Public outreach activities should take into account the needs of persons with limited proficiency in English.
- G. Ensuring low income or minority populations, including the elderly and persons with disabilities are not significantly or disproportionately impacted.
- H. Development and implementation of a Congestion Management Process as appropriate.
- I. Ensuring plans, projects and programs are consistent with and conform to air quality goals of reducing transportation-related emissions and attaining National Ambient Air Quality Standards.

II. The Regional Transportation Plan (RTP)

The RTP will be prepared and compiled through a cooperative process between federal agencies, the Nevada Department of Transportation, RTCWC (including RTCWC in its capacity as the provider of public transportation), the Washoe County

DRAFT

Health District-Air Quality Management Division (WCHD-AQMD), and the local city and county governments in the region.

Responsibilities of the Regional Transportation Commission

- A. The RTCWC will be responsible for preparing and developing the Regional Transportation Plan (20-30 year). The RTP will be converted into a format that will allow it to be downloaded from the internet.
- B. The RTCWC may develop an executive summary report for the region that includes the key issues facing the area and identifies priority programs and projects.
- C. The RTCWC will provide opportunities for the public and other interested parties to provide input during the development of the Regional Transportation Plan, in accordance with the Public Participation Plan. The draft of each update to the RTP will be made available for public and agency review and comment. Prior to taking formal action on the Plan or Plan update, the RTCWC Board will be informed of the extent and nature of comments received and the response to such comments.
- D. The RTCWC will, in cooperation with NDOT, develop estimates of future inflation to be used to convert project costs and revenues to a “year of expenditure” basis.
- E. The RTCWC will coordinate with the WCHD-AQMD to assess air quality impacts and conduct the regional emissions assessment of the RTP.
- F. The RTCWC, acting as the transit agency for Washoe County, will ensure the RTP includes information on local bus capital projects that are consistent with the transit capital program. The RTP will also identify future bus needs and services, including new routes, service expansion, vehicle needs, and operating financial needs.
- G. The RTCWC will prepare an estimate of local and regional revenues available for debt service, street and highway routine maintenance and operations, system preservation and highway modernization, facilities, transit and other infrastructure and overhead cost and reserves to be expended on transportation projects in Washoe County over the 20-30 year time frame of the plan.

Responsibilities of the Nevada Department of Transportation

- A. The Nevada Department of Transportation (NDOT) will provide the following information and data in support of developing the RTP:
 1. An estimate of federal funds expected to be available over the 20-30 year time frame of the plan for highway and transit programs. This estimate of funds will be provided at a time mutually agreed upon by the RTCWC and NDOT so that the fiscal limits of the RTP can be determined before project prioritization begins.
 2. A list of projects in Washoe County, developed in cooperation with the RTCWC, to be undertaken by NDOT over the 20-30 year time frame of the plan using Federal program funds reserved in the State for use anywhere in the State. The state’s regionally significant project list will be provided at a time mutually agreed upon by the RTCWC and NDOT so that air quality conformity analysis can be performed at the appropriate time in the course of the RTP’s development.

DRAFT

3. A list of projects in Washoe County for which funds have been earmarked or otherwise designated in federal transportation legislation.
 4. An estimate of state funds expected to be expended on transportation projects in Washoe County over the 20-30 year time frame of the plan. In the interests of public information, and to assist the RTCWC in demonstrating the fiscal feasibility of the Plan, NDOT will also provide information as to how these expenditures relate to the state transportation revenues available after allowing for the cost of maintenance, operations, debt service, administration and other calls on these fund sources.
 5. Traffic count data and other performance indicators for state roads in the Region.
- B. For those federal program funds intended to be distributed between various entities or regions within the State, NDOT will either provide the basis for the allocation between areas as defined by Law, or will work cooperatively with the RTCWC and other jurisdictions to establish mutually agreed formulae for the allocation between areas of such funds for forecasting and financial planning purposes.

NDOT will provide information on projects to be undertaken in Washoe County using transit or other federal program funds allocated to non-urbanized areas of the State, and will consult with the RTCWC on the basis for selecting such projects.

III. Transportation Improvement Program (TIP)

The TIP will be prepared and compiled through a cooperative process between federal agencies, NDOT, the RTCWC (including the RTCWC in its capacity as the provider of public transportation), and the local city and county governments in the region.

Responsibilities of the Regional Transportation Commission

- A. The RTCWC will be responsible for preparing and developing the Transportation Improvement Program (5 year) for the region. The TIP will be converted into a format that will allow it to be downloaded from the internet. The RTCWC will maintain the TIP by tracking changes to projects (schedule, scope and cost) made through the amendments and administrative action process. The TIP will include an estimate of anticipated local funds to be expended on all projects identified in the TIP.
- B. The RTCWC, in consultation with NDOT and local city and county governments, shall develop the list of locally-sponsored transportation projects to be included in the TIP.
 1. In the case of the Congestion Mitigation and Air Quality Program (or successor program of similar intent), the RTCWC shall follow the Transportation Conformity Plan process and consult with the WCHD-AQMD and other agencies as appropriate in the development of the list of projects to be included in the TIP.
 2. In the case of the Transportation Alternatives Program (or successor program of similar intent), the RTCWC shall also consult with all eligible project sponsors in the development of the list of projects to be included in the TIP.

DRAFT

- C. The RTCWC, as the provider of public transportation services, shall develop the list of transit projects to be included in the TIP.
 - 1. In the urbanized area, the RTCWC shall consult with not-for-profit agencies and other providers of specialized transportation and human services, in accordance with the Coordinated Public Transit-Human Services Plan.
 - 2. For non-urbanized area transit programs, the RTCWC shall consult with NDOT and other providers of transportation services to the non-urbanized parts of the region.
- D. The RTCWC will develop an estimate of anticipated local funds to be expended on transit projects identified in the TIP. In the interests of public information and to assist in demonstrating the fiscal feasibility of the TIP, the RTCWC will also document how these expenditures relate to the local revenues available for transit after allowing for the cost of maintenance, operations, debt service, administration and other calls on these fund sources.
- E. The RTCWC will provide information on proposed TIP amendments and administrative modifications relating to projects sponsored by the RTCWC or local entities. Amendments and administrative modifications will include a project description that provides sufficient detail to explain the proposed changes to the RTCWC board, as well as a justification for the change.

Responsibilities of the Nevada Department of Transportation

- A. NDOT will prepare an initial list of NDOT-sponsored projects to be included in each new TIP. This list will be based on the current TIP and an assessment of which projects will be obligated for funding before the end of the current federal fiscal year.
- B. NDOT will provide information on proposed TIP amendments and modifications relating to projects sponsored by NDOT. Amendments will include a project description that provides sufficient detail to allow the proposed changes to be explained to the RTCWC Board, as well as a justification for the change.
- C. NDOT will provide a list of projects obligated during the federal fiscal year at the end of each program year. The annual list of obligated projects should include both highway and transit projects and should identify the fund source and the amount obligated in accordance with 23 CFR 450.332.
- D. NDOT will provide, for each federal fund source, the revenues available (including both unobligated funds carried forward from prior years and the amount appropriated during the fiscal year), the total amount obligated, any other deductions and the balance of funds remaining at the end of the fiscal year.

IV. Statewide Transportation Improvement Program (STIP)

- A. NDOT will develop a four-year STIP including projects in the areas of each MPO and in the rural regions of the State and will be responsible for securing the approval of the STIP by the United States Department of Transportation.
- B. The TIP, as developed by the RTCWC, will be incorporated into the STIP without change, directly or by reference.

DRAFT

- C. NDOT, in consultation with the RTCWC and the other MPOs in the State, shall develop procedures for the modification and amendment of the STIP. NDOT shall be responsible for notifying the RTCWC of the effective date of modifications and the approval date of amendments.

V. Public Transportation Planning

- A. The RTCWC, acting as the transit agency for the Region, will ensure the RTP and TIP include all transit projects (both capital and operating) that are funded by Federal program funds.
- B. The RTCWC will consult with NDOT to ensure the RTP and TIP include information on transit projects in the non-urbanized parts of the region that are funded by Federal program funds.
- C. The RTCWC will include in the RTP information on the transit system and will outline the objectives of the RTCWC in respect of the various types and modes of public transportation in the region.

VI. Air Quality Planning

- A. The preparation of a new or revised RTP will be coordinated with the State Air Quality Implementation Plan (SIP) and the transportation demand and system management (TDM/TSM) measures.
- B. In accordance with the Clean Air Act and the U.S. EPA's conformity regulations (40 C.F.R. Part 51), the RTCWC, acting as the MPO, makes an air quality conformity determination on any new or revised RTP prior to Plan approval. Any such new or revised RTP is also provided to the FHWA and the FTA with a request that these federal agencies approve the conformity finding.

VII. Public Participation Program

- A. The RTCWC will develop and maintain a Public Participation Plan that sets out the procedures to include the public and interested parties in the development of the Regional Transportation Plan and Transportation Improvement Program and other parts of the planning process, to seek public input and comment, and to inform decision makers of the extent and nature of comments received and the response to such comments
- B. The RTCWC will review, evaluate, and update its public participation plan at least every four years.
- C. The RTCWC will maintain a list of interested organizations and individuals who will receive notices of MPO plans, programs and projects.
- D. The RTCWC will work to ensure that low-income, minority and transit dependent areas are afforded an adequate opportunity to participate in the transportation planning process, receive a fair share of the transportation improvement benefits and do not endure a disproportionate transportation burden.
- E. The RTCWC will maintain its website to provide clear and concise information on the transportation planning process and provide an opportunity to download reports and documents. This will include developing project and study summaries,

DRAFT

converting reports into a pdf or text format, and maintaining a list of available documents. The website will provide links to other associated organizations and agencies.

VIII. Fiscal/Financial Planning

- A. NDOT will provide the RTCWC with up-to-date fiscal and financial information and projections on the statewide and regional transportation improvement programs to the extent practicable.
- B. This will include anticipated federal funding resources by federal aid category by year for the four years covered by the TIP and by five-yearly intervals for the 20-30 year time frame of the RTP for the inclusion in the TIP and RTP financial charts.
- C. For each federal program for which funds are sub-allocated to Washoe County, NDOT will provide an annual statement identifying:
 - 1. Unobligated funds brought forward from the previous year;
 - 2. Funds appropriated during the year;
 - 3. Fund obligated during the year and any adjustments thereto;
 - 4. Unobligated funds balance.
- D. For each federal transit program for which funds are allocated to Washoe County, the RTCWC will provide an annual statement identifying:
 - 1. Unobligated funds brought forward from the previous year;
 - 2. Funds appropriated during the year;
 - 3. Funds obligated during the year and any adjustments thereto;
 - 4. Unobligated funds balance.
- E. NDOT will notify the RTCWC when the anticipated cost of a project, regardless of funding category, has changed in accordance with the agreed upon TIP/STIP amendment and administrative action process.

IX. Performance Measurement and the Management of Congestion

- A. In developing the RTP and TIP, RTCWC will incorporate the national goals, measures and standards of system performance established under the provisions of MAP-21.
- B. RTCWC will coordinate with NDOT in the establishment of multimodal transportation system performance targets for the region. These will reflect national goals and standards as applied to the circumstances and priorities of the region.
- C. RTCWC will cooperate with NDOT to collect data and conduct system performance monitoring. RTCWC will report on progress towards meeting system performance targets as part of the biennial development of major TIP updates and will assist NDOT as needed in meeting state reporting requirements under MAP-21.
- D. To address the national goal of reducing congestion, RTCWC will gather and analyze data to define the extent and duration of congestion in the region, to identify the causes of congestion and to identify congestion management strategies.
- E. As part of the Congestion Management Process (CMP), the RTCWC will develop implementation activities in coordination with NDOT to address congestion and other performance issues, and will include priority projects in the RTP and TIP.

DRAFT

Amendments to this Document

This Statement on Transportation Planning may be amended from time to time to coincide with annual UPWP approval as jointly deemed necessary or in the best interests of all parties, including Federal transportation agencies.

Effective Date

This Statement will be effective after it has been endorsed by the RTCWC as part of the UPWP, and as soon as that UPWP has been approved by NDOT and the relevant Federal transportation agencies.

No Limitation on Statutory Authority

Nothing contained in this Statement is intended to or shall limit the authority or responsibilities assigned to signatory organizations under Nevada law, federal law, local ordinance, or interlocal agreement.
