ITEM 1. ROLL CALL/CALL TO ORDER

The Citizens Multimodal Advisory Committee (CMAC) meeting was conducted as a Zoom Webinar. The meeting was called to order at 5:33 p.m. by Benjamin Miller.

ITEM 2. APPROVAL OF AGENDA

The agenda was approved as submitted.

ITEM 3. PUBLIC COMMENT

There were no public comments.

ITEM 4. APPROVAL OF THE JULY 6, 2022, MEETING MINUTES

The CMAC July 6, 2022, meeting minutes were approved as submitted.

ITEM 5. ACKNOWLEDGE RECEIPT OF A PRESENTATION ON THE CITY OF RENO MICROMOBILITY PILOT PROJECT

Sara Going, RTC Engineering Project Manager and Catie Harrison, City of Reno gave a presentation on the City of Reno Micromobility Pilot Project. A copy of the Power Point presentation is on file at the RTC Metropolitan Planning Department.

Ann Silver, Vice Chair entered the CMAC webinar meeting at 5:38 p.m.

Sue-Ting Chene entered the CMAC webinar meeting at 5:43 p.m.

Ann Silver, Vice Chair asked about the target users for this program. Catie Harrison, COR stated the micromobility pilot project, the survey and feedback is for all users of the pilot program. Sue Ting requested the Power Point presentation to share with others. Rebecca Kapuler, RTC Senior Technical Planner requested the presentation to be attached with the minutes for this meeting. Mathew Boog asked why the pilot project is being taken down in November. Sara Going, RTC Engineering Project Manager, stated the micromobility project is being temporarily conducted to gather data and public feedback on the new micromobility features from the community. She encouraged everyone to provide feedback from the survey. Mathew Boog asked what data for the program will be used. Catie Harrison, COR stated the feedback from the survey and data will determine the result of the pilot program. There was a discussion on when the program will be in place after the survey and feedback is completed. Catie Harrison, COR stated it will not be a complete removal of the pilot program but a modification due to the temporarily installation infrastructure, maintenance and an evaluation will be needed for what kind of infrastructure can be permanently installed. Thomas Tsunemoto, public, stated he is a bike commuter to work and asked after the pilot is complete will there be more connectivity to other bike infrastructure other than the downtown area. Sara Going, RTC Engineering Project Manager stated the focus is to network on the micro mode facilities and their issues. Benjamin Miller asked if the City of Reno is partnering with Bird. Catie Harrison, COR stated Bird scooters are users of the infrastructure and data will be collected from the public survey and LIDAR. Mike May asked of the communities details on LIDAR for tracking scooters. Catie Harrison, COR stated Bird provided data for the City of Reno for Geo fencing technology of the area. Sue Ting commented on the Virginia Street Place Making Study and the Micromobility Pilot Project surveys. Catie Harrison, COR stated their communications department has put an infographic to provide feedback to both of the surveys. A discussion continued on the surveys. Dennis Colling asked about the interaction between the pilot program users and law enforcement feedback. Catie Harrison, COR stated COR is collaborating with the Reno Police Department (RPD) for the users of the infrastructure, educational components and enforcement.

Dennis Colling made a motion to acknowledge receipt of a presentation on the City of Reno Micromobility Pilot Project.

Mathew Boog seconded.

The motion carried unanimously.

ITEM 6. MEMBER ANNOUNCEMENTS/AGENDA ITEMS FOR FUTURE CMAC MEETINGS
