Metropolitan Planning Organization of Washoe County, Nevada

MEETING DATE: December 7, 2022

AGENDA ITEM 5

To: Citizens Multimodal Advisory Committee

From: Graham Dollarhide
Senior Technical Planner

RECOMMENDED ACTION

Recommend approval of the proposed Amendment No. 4 to the FFY 2021-2025 Regional Transportation Improvement Program (RTIP).

BACKGROUND AND DISCUSSION

Amendment No. 4 is required to add new projects and incorporate updates to existing projects already included in the RTIP. The amendment includes five projects added to the RTIP by the Nevada Department of Transportation (NDOT), four of which are bridge replacement projects on state roadways. The remaining project implements the first phase of recommendations from a study recently completed on the Mt. Rose Highway corridor. The amendment also includes updates to projects led NDOT. Total project funding for several of these roadway projects will be increased, one of which also includes a change of scope, and another project has no changes other than the year funds are programmed. While the threshold requiring a formal amendment has not been met for this project, it being included as part of this amendment to streamline the programming process.

An air quality analysis for the proposed amendment was not required as the added and amended projects are either exempt from transportation conformity requirements or have already complied with this requirement and the associated amendment does not involve a change to the project scope.

The public comment period for the amendment began on Friday, December 2, 2022, and will close on Thursday, December 8, 2022. A public hearing will be held at the RTC Board meeting on Friday, December 16, 2022.
