REGIONAL TRANSPORTATION COMMISSION

Metropolitan Planning • Public Transportation & Operations • Engineering & Construction

Metropolitan Planning Organization of Washoe County, Nevada

MEETING DATE: November 7, 2024

AGENDA ITEM 6

To: Technical Advisory Committee

From: Vanessa Lacer, MPA, AICP, Planning Director

RECOMMENDED ACTION

Receive a presentation on the 2050 Regional Transportation Plan (RTP) Update

BACKGROUND AND DISCUSSION

The RTP is the RTC's long-range transportation plan as required under Title 23, Part 450 of the Code of Federal Regulations (CFR). It contains major transportation projects and programs for Washoe County for all modes of travel. It functions as the major tool for implementing regional long-range transportation planning. The RTP captures the community's vision of the transportation system and identifies the projects, programs, and services necessary to achieve that vision.

The RTC initiated the development of the 2050 Regional Transportation Plan Update in the Fall of 2023. The planning process identifies long-term goals for the regional transportation system and identifies the projects, programs, and services that are expected to be implemented through 2050. The RTP is based on a robust community engagement process and conducted in collaboration with partner agencies. The RTP is required to address at least a 20-year planning timeframe and must include short and long-term strategies to foster the development of an integrated multi-modal regional transportation system that facilitates the safe and efficient movement of people and goods. Additional requirements of the RTP include a prioritized and fiscally constrained list of the transportation projects and services for the region that are needed over the next 20 years. Federal regulations require that the RTP be updated every four years. The current RTP approval extends through March 2025. It is anticipated that the draft plan will be available for public and agency review in January 2025 with Board action by March 2025.
