5. INFORMATION AND DISCUSSION ITEMS.

ITEM 1: Provide information and advice regarding the draft Coordinated Public Transit-Human Services Transportation Plan (CTP). Graham Dollarhide, RTC Planning Manager, gave a presentation.

Kathie asked if route 26 was brought up during this discussion and if not when is the best time to discuss it. Graham responded that this topic would be best discussed during a conversation regarding the Transportation Optimization Plan Strategies (TOPS). Jim Gee, RTC Director of Public Transportation, stated that a search for a consultant for the TOPS plan is underway and the RTC will be looking for public comments early next year.

Panah suggested reaching out to property managers who work at affordable housing developments for future collaborations. They can be accessed through the Nevada Housing Coalition. Many of them provide social services and when developers apply for funding to renovate or improve affordable housing, many of the funding sources award points. She stated this could be a win for everyone. Panah also asked about the mechanisms for public outreach and suggested use of the library. There are a lot of opportunities to get the word out especially for seniors. Newsletters, bulletin boards, and large signs. She asked for more information about current outreach efforts. Graham responded RTC has compiled a list of stakeholders, attended multiple events such as the Washoe county and City of Sparks Senior Centers, advertisements through standard forums and in conjunction with the RTP efforts.

Ryan asked what led to the development of so many different transportation providers. Graham responded that transportation is dictated by different entities such as Federal, State, etc. There are eligibility requirements and other criteria that dictates services based on funding sources.
